ANNUAL ASBESTOS NOTIFICATION LETTER For School Year 2021 - 2022

Date: September 1, 2021

Dear Parents/Guardians, Students, Staff, and Building Occupants:

The Asbestos Hazard Emergency Response Act (AHERA) regulations required that all school buildings be visually inspected by accredited asbestos inspectors and that the results of the inspection (s) are reported in the Asbestos Management Plan, which is updated every three years. The plan must be available for review in all school facilities. However, the Douglas High School & Douglas Elementary School have signed statements from the architect stating that no ACBM (Asbestos Containing Building Materials) was specified in the building's construction. The Douglas Middle School repairs included removal of asbestos containing materials in accordance with applicable regulations. The Douglas Primary School complies with all AHERA re-inspection, asbestos management plan, periodic surveillance, and reporting requirements.

It is the intention of the Douglas Public Schools to comply with all federal and state regulations controlling asbestos and to take whatever steps are necessary to ensure students and employees a healthy and safe environment in which to learn and work. A copy of each school's Asbestos Management Plan is available for on-site review at each School's main office during regular school hours.

Any inquiries regarding the management of asbestos containing materials in our schools should be directed to our district's AHERA designated Person, Jeff Kollett, Facilities Manager, who can be reached at 508-476-4100 ext. 3108 or by email at jkollett@douglasps.net.
